

BARN[®] VOICE

INFORMATION SHEET

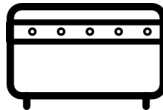

B4RN[®]

VOICE

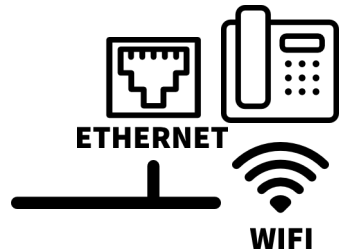

TELEPHONE

B4RN ROUTER

VOIP PHONE

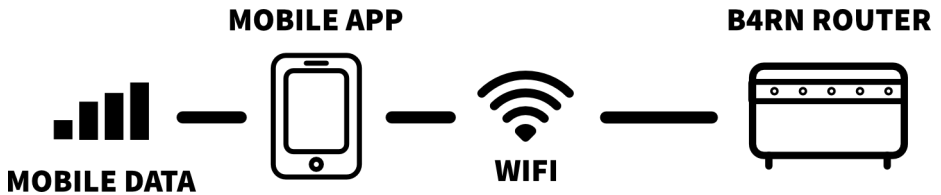

Handsets

Traditional telephones and VOIP handsets can be used with the B4RN Voice service.

Using the adaptor provided, plug the your phone directly into your B4RN router and start making calls.

You can use VoIP specific handsets with the B4RN Voice service although we cannot guarantee that all models of handset are compatible. If you feel confident configuring the VoIP phone, we can supply SIP credentials for it.

B4RN[®] VOICE

Mobile app

Take your landline mobile with the B4RN mobile app. using mobile data or wifi you can answer / make calls and listen to voicemail inside or outside the home.

The B4RN voice mobile app is available to download for Android and iOS devices.

The B4RN Voice mobile app currently only supports a single user. If you have a requirement for multiple mobile devices in the household we recommend the Linphone mobile app. For assistance with setup our Helpdesk team are happy to help.
